

3rd Annual Precision Mental Health Symposium

October 24, 2023 | Stanford LKSC

Precision Psychiatry, Personalized Neuroscience & the Future of Mental Health Treatment

Helen
Mayberg, MD
Mount Sinai

OPENING PLENARY:

*The Evolution of Imaging Biomarkers to Guide Major
Depression Treatment*

9:30 am

Translational and Novel Therapeutics Theme

Carolyn
Rodriguez, MD,
PhD
Stanford

Keynote:

Future of Translational Therapeutics: Novel Mechanisms

11:00 am

Xue Zhang,
PhD
Stanford

Rising Star:

Personalized Imaging with Novel Therapeutics

11:30 am

Noah Philip,
MD
Brown

Keynote:

Pragmatic Precision: Non-invasive Brain Stimulation for PTSD

1:00 pm

Novel Approaches to Stratified/Precision Mental Health Theme

Leonardo
Tozzi, MD, PhD
Stanford

Rising Star:

*Personalized Brain Circuit Scores Linking Biotypes,
Symptoms, Behavior and Treatment Outcomes*

1:30 pm

Leanne
Williams, PhD
Stanford

Directors Panel:

Vision for the Future

2:00 pm

Ruth O'Hara,
PhD
Stanford

Panel Discussion, Including All Speakers

2:30 pm

Precision Mental Health & Clinical Translational Neuroscience Theme

Happy Hour Poster Session

3:00-5:00 pm
